OBJECTIVE

I was born on November 25, 2006, and I studied in Johor to become a qualified designer. My ideal is that designs should be practical. I can edit videos, take photos, do handicrafts, create posters, make 3D models and animations, and do post-production sound mixing, etc.

EDUCATION

2020 - 2025

Secondary School

SMK Taman Pelangi Indah

I started my secondary education here at the age of 13 and graduated with an SPM diploma.

2025 - 2027

Diploma In Multimedia Design

Southern University College

I learned a great deal about design skills, intuition, and aesthetics here. I also learned many computer design software programs and drawing techniques.

SKILLS

Adobe Photoshop

Adobe Illustrator

Adobe After Effect

Adobe Primium Pro
